

EX-CROWN PRINCE OF GERMANY TURNS TO BLACKSMITHING

Popular With Villagers and Very Interested in Women and Styles From Paris.

WEERINGEN, June 23.—The former Crown Prince of Germany has taken to blacksmithing to while away the idle hours in bad weather, and it was in the blacksmith shop of his home in Weeringen that I found him when I visited Weeringen.

He was standing before the anvil, his face illuminated by the glowing coals, sleeves rolled up, in sport knickerbockers, with heavy wool stockings. My visit did not seem to surprise him in the least.

"One minute," he said, "and I will be with you."

The iron was now red hot, and he had to take advantage of it. He brought down the hammer a few times; there was a shower of sparks, a hissing sound in the tub of water, and the job was done.

Frederick William rubbed his hands with a satisfied air, removed his skin jacket and a cyclist's cap pulled down upon his hair, which still remains blond.

The blacksmith himself, greatly embarrassed, consulted with his wife over the best way to receive me and the photographer who accompanied me. But the ex-Crown Prince solved the difficulty himself, and five minutes later we were seated in the dining room of Mr. Luit, the blacksmith, around an imposing pitcher of beer.

MILWAUKEE, Wis., June 23.—Commercialized vice, removed from segregated districts of American cities, has appeared in other forms, according to Allen T. Burns, New York, president of the National Conference of Social Workers, in session here.

Serious doubt was expressed by Burns as to the actual good accomplished by the vice crusades and the resultant legislation.

Burns pleaded for "chemists of social conditions to analyze modern society's needs."

More than 4,000 delegates are attending the conference.
